

Special Issue

Methods and Protocols 2023

Message from the Guest Editor

We are pleased to announce this Special Issue, entitled “*Methods and Protocols* in 2023”, which is part of the MDPI journal New Year Special Issue Series. This Special Issue will be a collection of high-quality reviews and original research articles from Advisory Board Members, Editor-in-Chief, Associate Editor, Editorial Board Members, , Topical Advisory Panel Members, Reviewer Board Members, Authors, and Reviewers from *Methods and Protocols*, in addition to excellent editorials from high-profile scholars in the fields of biological, medical, chemical, life sciences and public health et al. Submissions on new protocols based on established techniques as well as significant improvements and developments of cutting-edge methods are welcome.

Guest Editor

Prof. Dr. Fernando Albericio

1. School of Chemistry and Physics, University of KwaZulu-Natal, Durban, South Africa
2. Department of Organic Chemistry, University of Barcelona, Barcelona, Spain

Deadline for manuscript submissions

closed (31 March 2023)

About the Journal

Message from the Editor-in-Chief

Methods and Protocols (ISSN 2409-9279) is an open access journal devoted to the publication of new procedural approaches and cutting-edge methodological developments. The ultimate objective of this new forum of scientific communication is to provide researchers with an indispensable tool, enabling better use of the latest scientific technologies. With a broad and totally interdisciplinary focus, *Methods and Protocols* was established with the objective of facilitating cross-fertilization and cross-talk in the scientific arena. Methods and protocols in Life Sciences, Chemistry, Biomedical Sciences, Engineering, and in their intersections such as Biotechnology and Nanotechnology will constitute the core of the journal. However, we anticipate that other fundamental disciplines such as Physics or Geology will be rapidly incorporated.

Editor-in-Chief
