Animal, Rural and Environmental  
Sciences, Nottingham Trent  
University, Southwell,  
Nottingham, UK

Deadline for manuscript  
submissions:

**closed (20 April 2018)**

### Message from the Guest Editors

Dear Colleagues,

The purpose of this Special Issue is to bring together state-of-the-art research articles on the use and potential of multimedia and multimodal interfaces for animal-centred applications and interactions.

We invite original research articles, works in progress, surveys, and reviews. Topics of interest include, but are not limited to:

- Animal Behavior and Multimodal Technology in ACI
- Interaction Multimodality Design for ACI
- Multisensory Technology for ACI
- Multimedia Technology for ACI
- Multimodal Design Solutions for ACI Applications
- Multimodal Technology as Methodological Tool in ACI

Dr. Naohisa Ohta

Dr. Clara Mancini

Dr. Jake Veasey
