

Text Mining in Complex Domains

Guest Editors:

Dr. Suzan Verberne

Leiden Institute of Advanced
Computer Science, Leiden
University, Leiden, The
Netherlands

Dr. Iris Hendrickx

Faculty of Arts, Radboud
University, Nijmegen, The
Netherlands

Deadline for manuscript
submissions:

closed (30 June 2019)

Message from the Guest Editors

This special issue invites submissions on the following topics:

- Text mining methods, among which: named entity recognition, relation extraction, text categorization, text summarization, authorship detection, sentiment analysis
- Text mining applications for complex domains
- Domain adaptation for text mining methods
- Evaluation of text mining methods
- Pre-processing pipelines for text mining
- Natural Language Processing for text mining
- Information Retrieval for text mining
- User interfacing for text mining
- User studies addressing text mining applications
- Methods for mining text with images

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Mark Billinghurst

1. School of Information
Technology and Mathematical
Sciences, University of South
Australia, Adelaide, SA 5000,
Australia
2. Empathic Computing
Laboratory, The University of
Auckland, Auckland 1010, New
Zealand

Message from the Editor-in-Chief

Towards the end of 2018, I was approached to be the new Editor-in-Chief for the *Multimodal Technologies and Interaction (MTI)* journal. I was honored to be considered and happily accepted the role, starting in January 2019.

MTI is a new journal, and since starting in 2017, has published 10 issues with over 140 papers, with the number of publications continuing to grow. As Editor-in-Chief, I would like to continue increasing the number of high-quality papers that we publish, and in addition, work towards improving the journal in other ways, such as getting the journal listed on ISI, establishing an impact factor, and increasing our social media presence.

I would also like to better engage with the research community, including bringing some new members onto the Editorial Board, focusing the journal on the latest areas of interest, marketing at leading conferences and, most importantly, getting feedback from our readers.

Author Benefits

Open Access: free for readers, with [article processing charges \(APC\)](#) paid by authors or their institutions.

High Visibility: indexed within [Scopus](#), [ESCI \(Web of Science\)](#), [Inspec](#), [dblp Computer Science Bibliography](#), and other databases.

Journal Rank: CiteScore - Q1 (Neuroscience (miscellaneous))
