

## Special Issue

# Multimodal Interaction in Education

### Message from the Guest Editor

Multimodal learning and teaching are believed to enrich teachers' instructions, motivating students to learn about, interact and engage with the learning topic. This has a positive impact on various aspects of the learning process and related achievements. For this Special Issue, we are seeking submissions that address various educational phases, disciplines, and educational aspects (cognitive, affective, psychological, behavioural, social, meta, etc.). Potential topics include (but are not limited to):

- Multimodal understanding of the subject matter
- Students' perceptions of multimodal learning
- Teachers' use of multimodal methods
- Multimodal curriculum
- Multimodal tools in education

## About the Journal

### Message from the Editor-in-Chief

Towards the end of 2018, I was approached to be the new Editor-in-Chief for the *Multimodal Technologies and Interaction (MTI)* journal. I was honored to be considered and happily accepted the role, starting in January 2019.

*MTI* is a new journal, and since starting in 2017, has published 10 issues with over 140 papers, with the number of publications continuing to grow. As Editor-in-Chief, I would like to continue increasing the number of high-quality papers that we publish, and in addition, work towards improving the journal in other ways, such as getting the journal listed on ISI, establishing an impact factor, and increasing our social media presence.

I would also like to better engage with the research community, including bringing some new members onto the Editorial Board, focusing the journal on the latest areas of interest, marketing at leading conferences and, most importantly, getting feedback from our readers.
