

Special Issue

Multimodal Technologies in Animal–Computer Interaction

Message from the Guest Editors

The purpose of this Special Issue is to bring together state-of-the-art research articles on the use and potential of multimedia and multimodal interfaces for animal-centred applications and interactions. We invite original research articles, works in progress, surveys, and reviews. Topics of interest include, but are not limited to:

- Animal Behavior and Multimodal Technology in ACI
- Interaction Multimodality Design for ACI
- Multisensory Technology for ACI
- Multimedia Technology for ACI
- Multimodal Design Solutions for ACI Applications
- Multimodal Technology as Methodological Tool in ACI

Guest Editors

Dr. Naohisa Ohta

Prof. Dr. Clara Mancini

Dr. Jake Veasey

About the Journal

Message from the Editor-in-Chief

Towards the end of 2018, I was approached to be the new Editor-in-Chief for the *Multimodal Technologies and Interaction (MTI)* journal. I was honored to be considered and happily accepted the role, starting in January 2019.

MTI is a new journal, and since starting in 2017, has published 10 issues with over 140 papers, with the number of publications continuing to grow. As Editor-in-Chief, I would like to continue increasing the number of high-quality papers that we publish, and in addition, work towards improving the journal in other ways, such as getting the journal listed on ISI, establishing an impact factor, and increasing our social media presence.

I would also like to better engage with the research community, including bringing some new members onto the Editorial Board, focusing the journal on the latest areas of interest, marketing at leading conferences and, most importantly, getting feedback from our readers.

Editor-in-Chief

Prof. Dr. Mark Billinghurst

2. Empathic Computing Laboratory, The University of Auckland, Auckland 1010, New Zealand

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), Inspec, dblp Computer Science Bibliography, and other databases.

Journal Rank:

CiteScore - Q1 (Neuroscience (miscellaneous))

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 25 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the first half of 2025).
