

## Special Issue

# Nanomaterials: Tools for Translational Applications

### Message from the Guest Editors

We are proud to announce a Special Issue, “Nanomaterials for Translational Applications”, in *Nanomaterials* (MDPI; IF 4.034) (<https://www.mdpi.com/journal/nanomaterials>) devoted to the 4th International Symposium on Nanoparticles, Nanomaterials and Applications (4thISN2A-2020) (<http://www.isn2a2020.com/>). This Special Issue will select excellent papers from the oral (plenary, keynotes, and regular talks) and selected poster participations, and covers a very wide range of fields in nanomaterials applied in translational research, focusing on environmental, toxicological, imaging, drug delivery, new sustainable synthetic methods, and biomedical applications. We invite all the researchers to contribute original research articles, as well as review articles, to this Special Issue.

---

### Guest Editors

Prof. Dr. Jose Luis Capelo

Dr. Javier Fernández-Lodeiro

Dr. Elisabete Oliveira

Prof. Dr. Carlos Lodeiro

---

### Deadline for manuscript submissions

closed (31 October 2020)

## About the Journal

### Message from the Editor-in-Chief

Nanoscience and nanotechnology are exciting fields of research and development, with wide applications to electronic, optical, and magnetic devices, biology, medicine, energy, and defense. At the heart of these fields are the synthesis, characterization, modeling, and applications of new materials with lower nanometer-scale dimensions, which we call “nanomaterials”. These materials can exhibit unusual mesoscopic properties and include nanoparticles, coatings and thin films, metal–organic frameworks, membranes, nano–alloys, quantum dots, self-assemblies, 2D materials such as graphene, and nanotubes. Our journal, *Nanomaterials*, has the goal of publishing the highest quality papers on all aspects of nanomaterial science to an interdisciplinary scientific audience. All of our articles are published with rigorous refereeing and open access. We are proud of our increasing impact factor and ability to provide rapid decisions to authors.

---

### Editor-in-Chief

Prof. Dr. Eugenia Valsami-Jones

School of Geography, Earth and Environmental Science, University of Birmingham, Birmingham B15 2TT, UK

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

#### Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q1 (General Chemical Engineering)
