

Special Issue

Feature Papers in Nanomaterials Science

Message from the Guest Editors

As , we are pleased to inform you of the Special Issue “*Feature Papers in Nanomaterials Science*” to be published in *Nanomaterials*. The aim of this Special Issue is to compile original papers and review articles reporting on the recent breakthroughs achieved in the field of nanomaterials, including but not limited to:

- Synthesis of advanced nanomaterials;
- Nanomaterials for energy and environmental applications;
- Nanostructured catalysts, electrocatalysts and photocatalysts;
- Electroactive nanomaterials;
- Catalysis;
- Modelling and electrochemistry;
- Nanomedicines.

For well-prepared papers and those approved for further publication, authors might be eligible for discounts for publications. You are welcome to send short proposals for featured papers to the Nanomaterials Editorial Office or the of this Special Issue. For further reading, please follow the link to the Special Issue website at:
<https://www.mdpi.com/si/104723>.

Guest Editors

Dr. Nikolaos Dimitratos

Prof. Dr. Diego Cazorla-Amorós

Dr. Miriam Navlani-García

Prof. Dr. Jose L. Arias

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

Nanoscience and nanotechnology are exciting fields of research and development, with wide applications to electronic, optical, and magnetic devices, biology, medicine, energy, and defense. At the heart of these fields are the synthesis, characterization, modeling, and applications of new materials with lower nanometer-scale dimensions, which we call “nanomaterials”. These materials can exhibit unusual mesoscopic properties and include nanoparticles, coatings and thin films, metal–organic frameworks, membranes, nano-alloys, quantum dots, self-assemblies, 2D materials such as graphene, and nanotubes. Our journal, *Nanomaterials*, has the goal of publishing the highest quality papers on all aspects of nanomaterial science to an interdisciplinary scientific audience. All of our articles are published with rigorous refereeing and open access.

Editor-in-Chief

Prof. Dr. Eugenia Valsami-Jones

School of Geography, Earth and Environmental Science, University of
Birmingham, Birmingham B15 2TT, UK

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, PMC, CAPIus / SciFinder, Inspec, and other databases.

Journal Rank:

JCR - Q2 (Physics, Applied) / CiteScore - Q1 (General
Chemical Engineering)
