

Special Issue

Exclusive Papers Collection of Editorial Board Members in Neuroglia

Message from the Guest Editor

As the Editor-in-Chief of *Neuroglia*, I am pleased to announce this Special Issue, entitled “Exclusive Papers Collection of Editorial Board Members in Neuroglia”. This Special Issue will be a collection of high-quality papers from Members of the Editorial Board highlighting the various areas of research by Board Members. The aim is to provide a venue for networking and communication between the Members of the Editorial Board and scholars in this field. All papers will be published with full open access after peer review.

About the Journal

Message from the Editor-in-Chief

Neuroglia covers the critically important functions of the diverse range of cells within the nervous system that are collectively called glia. Our journal focuses on the development, function, and pathology of glia in the central and peripheral nervous systems, as well as how these cells can be used therapeutically to repair injuries and diseases of the nervous system. The journal welcomes research using the latest in vitro and in vivo animal and human research, with a view to its translation into potential human therapies.

Editor-in-Chief

Prof. Dr. Jessica Filosa
Department of Physiology, Augusta University, Augusta, GA 30912, USA

Author Benefits

High Visibility:

indexed within ESCI (Web of Science), Scopus and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 28.2 days after submission; acceptance to publication is undertaken in 2.6 days (median values for papers published in this journal in the second half of 2025).

Recognition of Reviewers:

reviewers who provide timely, thorough peer-review reports receive vouchers entitling them to a discount on the APC of their next publication in any MDPI journal, in appreciation of the work done.
