

Special Issue

Genetics of Movement Disorders

Message from the Guest Editor

Movement disorders encompass a diverse group of neurological conditions with both genetic and environmental underpinnings, and advances in genetic research have significantly enhanced our understanding of the molecular mechanisms driving them, revealing a complex interplay of monogenic, polygenic, and environmental factors. This Special Issue seeks to explore recent breakthroughs in the role of genetics in movement disorders, and the contributions will highlight the promise of genetic insights in terms of advancing both their diagnosis and management.

Guest Editor

Dr. Daniele Orsucci
Unit of Neurology, San Luca Hospital, 55100 Lucca, Italy

Deadline for manuscript submissions

30 November 2026

About the Journal

Message from the Editor-in-Chief

Editor-in-Chief

Prof. Dr. Junji Yamauchi

1. Laboratory of Molecular Neurology, Tokyo University of Pharmacy and Life Sciences, Tokyo, Japan
2. Department of Pharmacology, National Research Institute for Child Health and Development, Tokyo, Japan

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, ESCI (Web of Science), PubMed, PMC, Embase, and other databases.

Journal Rank:

JCR - Q2 (Clinical Neurology)
