

Topical Collection

Feature Papers in *NeuroSci*: From Consciousness to Clinical Neurology

Message from the Collection Editors

This topical collection of *NeuroSci* is dedicated to recent advances in nervous systems; neurons and neural circuits; neuroanatomy, neurophysiology; neuropharmacology; molecular and cellular neuroscience; bneuropsychology; psychiatry, cognitive and behavioral neuroscience; and computational neuroscience. It comprises a diverse selection of exclusive papers of the Editorial Board Members (EBMs) of *NeuroSci*, as well as invited papers from relevant experts. It focuses on highlighting recent interesting investigations conducted in the laboratories or clinics and represents our journal as an attractive open access publishing platform for neurology-related research data or reviews.

About the Journal

Message from the Editor-in-Chief

NeuroSci (ISSN 2673-4087) is an international, peer-reviewed open access journal focusing on neurology and neuroscience. The journal publishes comprehensive reviews, original research papers and high-quality communications. Our aim is to encourage scientists to publish their novel findings and concepts in fundamental and clinical neuroscience as much detail as possible. We invite you to read recent articles published in *NeuroSci* and consider publishing your next paper with us.

Editor-in-Chief

Dr. François Ichas

Institut des Maladies Neurodégénératives, CNRS et Université de
Bordeaux, UMR 5293, Bordeaux, France

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within ESCI (Web of Science), PMC, PubMed, EBSCO, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.1 days after submission; acceptance to publication is undertaken in 4.9 days (median values for papers published in this journal in the first half of 2025).
