Nursing Innovation and Quality Improvement

Message from the Guest Editor

As the largest profession in healthcare, nurses are fundamental to high-quality care. The Nursing and Midwifery Council Strategy (2020–2025) and the Future of Nursing (2020–2030) highlight the importance of improvement and innovation, with nurses being advocated as innovators and leaders in healthcare being called upon to support nurses in this role. There has never been a more crucial time to give nurses the skills and opportunities to embrace innovation and make improvements to enhance productivity, improve wellbeing, and positively impact on healthcare quality and patient safety. However, creating a culture for innovation and quality improvement (QI) in nursing is not easy; it takes time to build and requires vision, strategy, support, and resources. Innovators need the space and opportunity to connect with others, brainstorm, discuss, and take risks. Innovations and Improvements led by nurses can make significant contributions to patient care, but the speed of these actions needs to improve if we are to address some of the global health challenges that face us today.

About the Journal

Message from the Editor-in-Chief

Nursing Reports (ISSN 2039-4403) is an international, open access journal, addressing practice and policy issues across all fields of nursing science. We invite you to contribute original researches, review articles, essays or short reports for consideration and publication in the journal. Rapid turnaround time and full open access offer the opportunity to make research results immediately available to scientific communities and the general public.

Editor-in-Chief

Prof. Dr. Richard Gray
School of Nursing and Midwifery, La Trobe University, Melbourne, VIC
3004, Australia

Author Benefits

High Visibility:

indexed within Scopus, ESCI (Web of Science), PMC, PubMed, and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 27.5 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2025).

Journal Rank:

JCR - Q2 (Nursing) / CiteScore - Q2 (General Nursing)
