

## Special Issue

# Nursing Voice to Promote United Nations Sustainable Development Goals (SDG)

### Message from the Guest Editors

The 17 Sustainable Development Goals (SDGs) proposed at the 2030 Agenda for Sustainable Development were adopted by all United Nations Member States in 2015. These objectives make it possible to organize a global response to challenges such as hunger, poverty, social inequalities, access to education, climate change and even community development. Nurses, in their technical and scientific individuality, have a set of sensitive responses regarding diagnoses and interventions that allow them to respond to all 17 goals. This Special Issue intends to present evidence of the contribution of nursing, as a science and as a profession, to the SDGs.

## About the Journal

### Message from the Editor-in-Chief

*Nursing Reports* (ISSN 2039-4403) is an international, open access journal, addressing practice and policy issues across all fields of nursing science. We invite you to contribute original researches, review articles, essays or short reports for consideration and publication in the journal. Rapid turnaround time and full open access offer the opportunity to make research results immediately available to scientific communities and the general public.
