

Special Issue

Feature Review Papers in *Nutraceuticals*

Message from the Guest Editor

This Special Issue is dedicated to showcasing high-quality feature review papers that offer comprehensive and critical insights into current advances, challenges, and future directions in the field of nutraceuticals. With the growing global interest in the health benefits of bioactive compounds, functional foods, and dietary supplements, this issue aims to provide a collection of reviews authored by experts in this field.

This Special Issue seeks to elevate the visibility and impact of *Nutraceuticals*, fostering a valuable resource for researchers, practitioners, and policymakers in this rapidly evolving domain.

Topics of Interest Include, but Are Not Limited To:

- Recent trends and future perspectives in nutraceutical science;
- Mechanisms of action of bioactive compounds;
- Nutraceuticals in chronic disease prevention and management;
- Advances in formulation and delivery systems;
- Regulatory frameworks and safety assessments;
- Market trends and consumer behavior;
- Nutrigenomics and personalized nutrition.

Researchers are invited to contribute review articles that offer in-depth analysis, identify knowledge gaps, and propose directions for future research.

About the Journal

Message from the Editor-in-Chief

The contemporary world is struggling with an aging population, which necessitates the design of diets that promote “healthy aging”. In this context, nutraceuticals, health-supportive substances, are significant, remaining in the focus of scientific interests and being continuously developed worldwide. The *Nutraceuticals* journal focuses on the research and development of all fields related to these substances. All types of articles are welcome, including reviews, original papers, and short communications.

Editor-in-Chief

Prof. Dr. Masayoshi Yamaguchi

Cancer Biology Program, University of Hawaii Cancer Center, University of Hawaii at Manoa, 701 Ilalo Street, Hawaii, HI 96813, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus and other databases.

Rapid Publication:

manuscripts are peer-reviewed and a first decision is provided to authors approximately 21.1 days after submission; acceptance to publication is undertaken in 5.7 days (median values for papers published in this journal in the second half of 2025).
