

nutrients

Dear Colleagues,

We are pleased to announce that the winner of the *Nutrients* 2023 Young Investigator Award is Jonas Salling Quist.

2023 YOUNG INVESTIGATOR AWARD

WINNER

Dr. Jonas Salling Quist is a senior Researcher at Steno Diabetes Center Copenhagen and appointed Assistant Professor at the department of Biomedical Sciences at the University of Copenhagen. He is also a Visiting Researcher in the Appetite Control and Energy Balance Research Group at the University of Leeds, UK. He focuses on lifestyle, circadian rhythm, appetite regulation, and metabolism in relation to the prevention and treatment of obesity and type 2 diabetes areas where he has received significant scientific recognition. Dr. Jonas Salling Quist received his PhD in 2017 and has an outstanding publication record, comprising 36 publications in international peer-reviewed journals in the last 5 years. His Scopus scientific citation number is 511 and his Hirsch index is 13. He is evidently a rising star in the field, with a remarkable record of achievement for a young investigator at this stage of his career, especially in light of the competitive environment of scientific research today. Please join us in congratulating Dr. Jonas Salling Quist on his outstanding achievements.

As the awardee, Dr. Jonas Salling Quist will receive an honorarium of CHF 2000, an offer to publish a paper free of charge in *Nutrients* following peer review before the end of 2024, and an electronic certificate.

We would like to thank all the nominators from various fields of research for their participation, and all the Award Committee members for their evaluation of the many excellent nominations.
