Deadline for manuscript submissions:

**closed (15 July 2023)**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Nutrients*, entitled “Eating Habits and Chronic Diseases: Latest Advances and Prospects”, welcomes the submission of manuscripts focused on the relationship between eating habits and chronic diseases, i.e., cancers, metabolic, cardiovascular, autoimmune, respiratory, mental, and other chronic diseases. We encourage you to present a broad, current view of different eating habits throughout a person’s lifespan and in different populations.

Researchers are invited to submit original research articles, using any study design, including case studies, cross-sectional studies, the implementation or interventional studies, cohort studies, and reviews and meta-analyses.

We are hoping to publish a wide range of papers in this Special Issue and encourage you to submit your research. Please circulate this announcement to any colleagues you think may be interested.

We look forward to receiving your contributions.
