Prevention, Institute of  
Biosciences & Technology,  
College of Medicine, Texas A&M  
University, Houston, TX, USA

Deadline for manuscript  
submissions:

**15 June 2024**

### Message from the Guest Editors

Dear Colleagues,

This Special Issue, entitled "Nutrition and Food Safety in Pregnancy", is an essential resource for anyone interested in the intersection of maternal nutrition and food safety. We call for articles that focus on the importance of adequate nutrition and food safety during pregnancy.

The issue covers a broad range of topics, including topics among this non-comprehensive list:

The effects of nutrition in complicated pregnancies such as diabetic pregnancy;

The impact of maternal nutrition on maternal, fetal, and infant health;

The role of dietary supplements and micronutrients in pregnancy;

The effects of gestational weight gain on maternal and fetal health;

The issues of food safety in preventing pregnancy complications.

We hope that the articles in the Special Issue provide insights into current research on the latest nutrition and food safety practices for pregnant women. Additionally, the Special Issue will highlight the need for collaborative efforts among healthcare providers, policymakers, and researchers to develop and implement effective strategies to improve maternal and fetal nutrition and food safety.
