submissions:

30 September 2024

Message from the Guest Editor

Dear Colleagues,

Immunometabolism and immunonutrition play crucial roles in promoting health and preventing disease, as they represent the vital interfaces between the immune, metabolic and nutritional systems. Understanding these aspects is fundamental to optimizing the prevention and treatment strategies for various health conditions, as an integrated approach considering immunometabolism and immunonutrition can significantly contribute to promoting a balanced and resilient immune response, which is essential for maintaining health and preventing diseases. This Special Issue will discuss the possible cellular mechanisms and physiologies involved in the relationship between nutrition, the immune system and health/disease.

Prof. Dr. Ronaldo Vagner Thomatieli-Santos

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Food Science)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
