Message from the Guest Editors

Human serum lipoproteins are causally related to the development and regression of cardiovascular atherosclerosis, and highly responsive to changes in diet and food intake. This Special Issue in Nutrients on ‘Serum lipids, lipoproteins and human health’ welcomes original research and reviews of the literature in the following areas: dietary interventions that inform the inter-relationships between diet, body composition, lipids and lipoproteins and cardiovascular risk; genomics, metabolomics, and/or phenomics, and studies on the impact of dietary patterns and/or specific food groups.

Deadline for manuscript submissions:
closed (31 August 2018)
Editors-in-Chief

Prof. Dr. Lluis Serra-Majem
Professor of Preventive Medicine & Public Health, Director of the Research Institute of Biomedical and Health Sciences, University of Las Palmas de Gran Canaria, Spain

Prof. Dr. Maria Luz Fernandez

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Scopus and other databases. Full-text available in PubMed Central.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 15.7 days after submission; acceptance to publication is undertaken in 3.6 days (median values for papers published in this journal in the first half of 2019).
