Nutrition, Immunity and Viral Infection

Guest Editor:

Prof. Dr. Hiroshi Ichimura

Department of Viral Infection and
International Health, Graduate
School of Advanced Preventive
Medical Sciences/Graduate
School of Medical Sciences,
Kanazawa University, Kanazawa,
Japan

Deadline for manuscript
submissions:

closed (20 February 2021)

Message from the Guest Editor

The nutritional status of the host has been associated with both severity and susceptibility to infectious diseases. It is suggested that inadequate nutrition impairs the functioning of the immune system and also affects the viral pathogen, resulting in increased susceptibility to the infection. The main objective of this Special Issue is to assess the relationship between viral infection and the nutritional status of the host, particularly to see if the nutritional status of the host can affect immune function and have profound effects on the virus itself. On this topic, you are invited to submit proposals for manuscripts that fit the objectives and the topics of this Special Issue.

In this proposed Special Issue on "Nutrition, Immunity and Viral Infection", papers (reviews and/or clinical or experimental studies) dealing with various aspects of nutrition that could play a role in systemic/gut immunity and the pathogenesis of viral infectious diseases will be included.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (*Nutrition & Dietetics*) / CiteScore - Q1 (*Nutrition and Dietetics*)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
