Message from the Guest Editors

Nutrients and kidney diseases strongly influence each other. Kidneys filter and re-absorb various nutritional elements. Additionally, they synthesize many hormones, such as renin, erythropoietin, and prostaglandin, to maintain body homeostasis.

The aim of this Special Issue is to update our knowledge of nutrients in kidney disease as it relates to pathogenesis, molecular mechanisms, clinical presentation, diagnosis, and treatment.

Dr. Yoshiyuki Morishita
Dr. Naoki Nakagawa
Guest Editors

Deadline for manuscript submissions: closed (30 November 2021)
Editors-in-Chief

Prof. Dr. Lluis Serra-Majem
Professor of Preventive Medicine & Public Health, Director of the Research Institute of Biomedical and Health Sciences, University of Las Palmas de Gran Canaria, Spain

Prof. Dr. Maria Luz Fernandez
Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Author Benefits

Open Access:— free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and many other databases.

Journal Rank: JCR - Q1 (Nutrition & Dietetics) / CiteScore - Q1 (Food Science)
