Deadline for manuscript submissions: closed (31 December 2018)

Message from the Guest Editor

The purpose of this Special Issue “Older Individuals Nutrition” is to:

1. Address the sensory changes that occur with ageing which impact on nutrition
2. To describe the conditions that result in a reduction in oral intake due to difficulty swallowing
3. The edition will also deal with the role of nutrition in improving cognition and bone health. Finally, the issue will deal with both sensory changes to improve oral intake including the role of Umami and food fortification as well as advice on the practical delivery of good nutrition to frail older individuals
4. To understand the epidemiology of nutrition in older individuals
Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Scopus and other databases. Full-text available in PubMed Central.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 14.2 days after submission; acceptance to publication is undertaken in 4.4 days (median values for papers published in this journal in the second half of 2018).
