Deadline for manuscript submissions:

closed (15 February 2017)

Message from the Guest Editors

Dear Colleagues,

This Special Issue of *Nutrients* will include a variety of topical discussions related to current research and practice as they relate to Parenteral Nutrition (PN). It will include a discussion of the components of PN, including both macronutrients and micronutrients. It will review the use of PN in unique patient populations, such as the critically ill, and in pediatrics. It will also provide insight into optimizing the benefits of PN and minimizing the risks of PN from the perspective of the value of using pre-mx solutions vs. compounded, a discussion of catheter related blood stream infections and a discussion of other complications of PN including metabolic bone disease and PN associated liver disease (PNALD).

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
