closed (30 September 2017)

Message from the Guest Editor

Dear Colleagues,

The purpose of this Special Issue, “Prebiotics and Probiotics”, is to focus on the importance of intestinal microbiota for human health and disease and the possibilities of influencing its composition and function with probiotics and prebiotics.

The goal of this Special Issue is to clarify that the microbiome in the maternal fetal and pediatric age unit, as well as the immediate changes that occur as new microbes are acquired postnatally play major roles in subsequent health and disease. Rapidly developing technologies for multi-omic analyses and systems biology are shifting paradigms in both scientific knowledge and clinical care.

Finally, the idea will be to provide health professionals with comprehensive, understandable and friendly readable update information on the intestinal microbiota, probiotics and prebiotics.

Dr. Flavia Indrio

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank: JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
