### Message from the Guest Editors

Dear Colleagues,

The goal of this Special Issue, “Probiotics and Prebiotics in Pediatrics”, is to focus on the importance of pediatric nutrition with probiotics and prebiotics to improve gastrointestinal health in newborn, infants, and children.

Specifically, the aim is to clarify if probiotics and prebiotics can influence gut microbiota composition and host–interaction favoring human health and preventing diseases.

This new information will provide health care professionals with a widespread, clear and update evidence on probiotics and prebiotics and intestinal gut microbiota in pediatric care.

Dr. Francesco Savino

Prof. Dr. Yvan Vandenplas
