Message from the Guest Editors

The current evidence base highlights the importance of inclusion of whole-grain foods as part of healthy dietary template in order to reduce the risk of many non-communicable diseases. However, dietary data from many countries around the world suggest that most people are not consuming whole grains to a level that might benefit health. The evidence supporting specific health benefits of certain types of whole grains is more compelling than that for others.

The current Special Issue aims to bring together recent reviews and cutting-edge original papers in the field to address current gaps in the evidence base.

an Open Access Journal by MDPI

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

Professor of Preventive Medicine & Public Health, Director of the Research Institute of Biomedical and Health Sciences, University of Las Palmas de Gran Canaria, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High visibility: indexed by the Science Citation Index Expanded (Web of Science), MEDLINE (PubMed), Scopus and other databases. Full-text available in PubMed Central.

Rapid publication: manuscripts are peer-reviewed and a first decision provided to authors approximately 16.7 days after submission; acceptance to publication is undertaken in 3.8 days (median values for papers published in this journal in the second half of 2019).
