

Special Issue

Dietary Effects on Gastrointestinal Microbiota and Health

Message from the Guest Editors

This Special Issue seeks to delve into the intricate relationship between dietary habits and their effects on gastrointestinal (GI) microbiota composition, metabolic activity, and overall health outcomes. With a growing body of research highlighting the pivotal role of the gut microbiome in human health, understanding how dietary choices shape microbial communities in the GI tract has become an important field of investigation. This Special Issue aims to compile advanced research and insights into various aspects of dietary effects on gut microbiome and health. Contributions may include but are not limited to studies elucidating the mechanisms by which specific dietary components influence microbial diversity, function, and dysbiosis in the gut. Additionally, we welcome reviews and original research articles exploring the implications of altered gut microbiota composition and function for health outcomes such as metabolic disorders, immune functions, gastrointestinal diseases, and mental health.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
