

Special Issue

Impact of Dietary Patterns, Nutrition, and Lifestyle on Aging and Elderly Health

Message from the Guest Editor

We are pleased to invite you to submit research articles or reviews for the Special Issue. Globally, life expectancy has increased but the amount of time without disability or illness has not significantly increased. Stated differently, identifying dietary, nutrition, and lifestyle factors that may impact aging and the health of older adults, particularly healthy life expectancy, is critical.

This Special Issue aims to investigate the role of dietary patterns, nutrition, and lifestyle behaviors during this important life cycle stage with a particular focus on the following areas: regulation and dysregulation of metabolic health, including inflammation and cell senescence, risk of chronic disease, cognitive function and impairment, telomere stability, nutrient sensing, mitochondria functioning, maintenance of skeletal muscle mass and functional independence. The ultimate question is whether specific dietary patterns, including but not limited to daily meal composition and timing, as well as physical activity choices and other lifestyle behaviors including participation in stress reduction techniques, can positively impact the aging and health of the older adult.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
