Healthy Nutrition as the Key Reference in Special Diets, Quality of Life, and Sustainability

Message from the Guest Editors

Eating is about how we relate to food in various contexts, and it is influenced by difficult choices that take into account biological, social, cultural, economic, psychological, and access-to-food-related aspects. As a result, eating decisions go beyond basic physiological and nutritional requirements. When people are not properly instructed regarding food (choices and consumption) and a healthy diet, it is assumed that special diets or other dietary patterns will be inappropriate. Additionally, the maintenance of a balanced diet is endangered by the higher cost and poorer nutritional and sensory quality of specialty food products compared to conventional meals. All of these factors may negatively impact these people's quality of life and have an impact on their access to and choice of food. As a result, this Special Issue seeks original research studies, reviews, commentaries, and short communications on: special diets; dietary restrictions; dietary patterns; gluten-free diets; dairy-free diets; sugar restriction; salt restriction; vegan diets; vegetarian diets; quality of life; and sustainability.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
