Dietary Interventions to Advance Cardiometabolic Health

Message from the Guest Editors

Disparities in cardiometabolic diseases are pervasive in the U.S., with racial and ethnic minorities, those of lower socioeconomic status, and rural communities at greatest risk.

Diet is a key modifiable risk factor for these diseases. As highlighted in the NIH Nutrition and Health Disparities Framework, nutrition and diet-related disparities are driven by a multitude of factors calling for the need for multi-level interventions. Example studies that are needed to promote healthy dietary behaviors in those most impacted by cardiometabolic diseases include: implementation science studies to scale up evidence-based interventions such as the DASH and Mediterranean diets; behavioral economic research to make the healthy choice the easier choice in a variety of food environments in at-risk communities; dietary interventions including culturally tailored programs; Food is Medicine initiatives; and food environment interventions.

This Special Issue calls for research highlighting a variety of dietary interventions to address disparities in cardiometabolic health across the lifespan.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain
