Recent Advances in Gluten-Free Diet and Celiac Disease

Message from the Guest Editors

Thanks to the pioneering work of the Dutch pediatrician Willem Dicke in the 1950s, the gluten-free diet (GFD) has become the standard therapy for celiac disease (CeD), one of the most common life-long disorders. Recently, it has been discovered that the GFD can treat other gluten-related disorders (GRD), such as gluten ataxia and non-celiac gluten sensitivity. Nevertheless, the GFD has limitations, such as a less-than-optimal content of nutrients such as fiber and calcium, the risk of gluten contamination in many commercial foods, and a significant impact on the psycho-social aspects of daily life. As such, alternative/complementary dietary and non-dietary treatments are currently under scrutiny. The aim of this Special Issue of *Nutrients* is to highlight recent advances in the gluten-free diet in CeD and other GRDs from a broad perspective, e.g., including new methods for gluten analysis, the clinical monitoring of adherence to the GFD, psycho-social quality of life in patients treated with the GFD, complementary/alternative treatments including gluten-free wheat flours, probiotics and drugs.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
