

Special Issue

Interactions Between Early Nutrition, Early Environment, and Immunity

Message from the Guest Editors

The first 1000 days of life, including the intrauterine period, are critical for the development of a healthy immune system. During this time, both nutrition and environmental exposures play essential roles in shaping immune function. Specific nutrients, dietary patterns, and environmental factors impact the composition of the intestinal microbiota, which in turn has a decisive influence on immune system functionality throughout life. This special issue aims to highlight the complex interactions between early-life nutrition, environmental factors, and immune health. We welcome a diverse range of original studies—such as in vivo and in vitro research, case studies, cohort studies, and reviews—that explore how these interactions contribute to immune-related conditions across the lifespan. Areas of interest include, but are not limited to, allergies, infections, autoimmune diseases, immunodeficiencies, neuroimmune disorders, obesity, metabolic syndrome, and diabetes.

Guest Editors

Prof. Dr. Cevdet Ozdemir

Institute of Child Health, Department of Pediatric Basic Sciences, Istanbul University, Beyazit, Istanbul 34452, Turkey

Dr. Emilia Vassilopoulou

Department of Nutritional Sciences and Dietetics, International Hellenic University, 57400 Thessaloniki, Greece

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
