Nutritional Strategies for the Prevention and Treatment of Anemia in Neonates: Focusing on Iron Metabolism and Beyond

Message from the Guest Editors

Anemia in neonates is a multifactorial condition with significant short- and long-term health consequences. While iron deficiency remains a leading cause, other nutritional deficiencies and factors, including vitamin B12, folate, protein–energy malnutrition, and inflammatory conditions, also contribute to its development. This Special Issue aims to explore a broad range of nutritional interventions and underlying mechanisms related to the prevention, diagnosis, and treatment of anemia in neonates. Contributions offering new insights that can inform clinical practice and public health strategies for the prevention and management of neonatal anemia are strongly encouraged.

Guest Editors

Dr. Mehak Batra

Department of Public Health, School of Psychology and Public Health, La Trobe University, Melbourne, VIC 3086, Australia

Prof. Dr. George Moschonis

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
