Special Issue

Dose-Response Relationships of Vitamin D Status and Vitamin D Intake with Health Outcomes (3rd Edition)

Message from the Guest Editor

Numerous observational and intervention studies have suggested the adverse health effects of a poor vitamin D status and the health benefits of vitamin D intake. However, the results have often been inconsistent. Plausible major explanations for such inconsistency include heterogeneity in consideration of doseresponse relationships in observational studies and of the target populations and dosing schemes in intervention studies. Considering the success of the last two Special Issues, we are pleased to announce that we are launching a third Special Issue on this topic, entitled "Dose-Response Relationships of Vitamin D Status and Vitamin D Intake with Health Outcomes (3rd Edition)". The goal of this Special Issue is to contribute to a better understanding of the health effects of vitamin D status and vitamin D intake by paying significant attention to specific dose-response relationships of vitamin D status and vitamin D intake with a variety of health outcomes, including the incidence and mortality of major acute and chronic diseases.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. Nutrients adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of Nutrients has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluis Serra-Majem

- Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
- Research Institute of Biomedical and Health Sciences (IUIBS),
 University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
 Preventive Medicine Service, Centro Hospitalario Universitario
 Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las

Prof. Dr. Maria Luz Fernandez
