

Special Issue

The Latest Research on Probiotics: Nourishing Health or Pathways to Disease Resolution

Message from the Guest Editor

This topic aims to include the latest research related to probiotics, covering multiple aspects from early animal trials to clinical applications. We especially focus on the role of probiotics in human nutrition and their potential impact on the treatment and prevention of diseases. The featured topic will provide a platform for communication, fostering collaboration among scientists, clinical doctors, and nutrition experts, working together to leverage probiotic research in addressing various challenges faced by human health. Given your good expertise and publication record, I warmly invite you to contribute an article/review paper for possible for this Special Issue “The Latest Research on Probiotics: Nourishing Health or Pathways to Disease Resolution”. In order to plan the whole project, I kindly ask that you let us know as early as possible if you are interested in making a contribution. We look forward to hearing from you.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
