Implications of Diet and the Gut Microbiome in Neuroinflammation

Message from the Guest Editors

Neuroinflammation is increasingly recognized as a critical contributor to the pathogenesis of various neurological disorders, including Alzheimer's disease, multiple sclerosis, and depression. Emerging research highlights the gut–brain axis as a pivotal player in this process, where dietary components influence the composition and function of the gut microbiota, subsequently modulating neuroinflammatory pathways.

We hope to gather cutting-edge studies and reviews that explore how specific dietary patterns, nutrients, and bioactive compounds can alter gut microbial communities, leading to either the exacerbation or mitigation of neuroinflammation. By focusing on preclinical and, most importantly, clinical evidence, the collected works underscore the potential of diet-based interventions as a novel approach to manage or prevent neuroinflammatory conditions.

Potential clinical opportunities and ongoing studies are the light motive of this collection, which is essential for researchers, clinicians, and healthcare professionals interested in the intersection of nutrition, microbiology, and neurology.

Guest Editors

Dr. Alberto Corriero

Prof. Dr. Jean Charles Preiser

Dr. Rossana Soloperto

Deadline for manuscript submissions

15 February 2026

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
