

Special Issue

Featured Reviews on Prebiotics and Probiotics

Message from the Guest Editor

As is well known, prebiotics and probiotics play an important role in improving human health. In the last decade, extensive studies have reported the beneficial effect of prebiotics and probiotics on gastrointestinal and metabolic health. This Special Issue aims to summarize the current situation in this field and provide more references for future research. For this Special Issue, we welcome all narrative and systematic reviews on any aspects (e.g., clinical, in vivo, in vitro), in order to report the effect of gut microbiota, pre- and probiotics, and their products, on human health and disease.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
