

Special Issue

Nutritional Intervention in Mental Health—2nd Edition

Message from the Guest Editor

Nutrition supports our bodies with what is needed for growth and development. The bricks of life, represented by macronutrients and micronutrients, not only have effects on growth and functionality, but they also play important roles in the neuropsychiatric development of children and adolescents and maintain functionality in adult daily life. The dietary behavior of neuropsychiatric patients is poorly understood, and it is thought that it may favor the disease rather than the healing process, or vice versa. Patients with mental health problems might need a personalized composition of their daily meals. Special diets might be helpful. The role of the microbiome in the context of neuropsychiatric disorders may also be important, as recent research results have begun to demonstrate. The most recent discoveries made and research carried out in this field will hopefully help patients with neuropsychiatric diseases. This Special Issue will focus on the relationship between nutrition and neuropsychiatric diseases/development as a promising field of research, new discoveries, and nutritional help.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
