Health Effects of Diet-Sourced Hazardous Factors

Message from the Guest Editors

Over the past several decades, as society and economy developed in leaps and bounds, food sources have become diversified. The health effects of diet-sourced hazardous factors, including the excessive nutrient intake, food contaminants, etc., have been put in the spotlight. This SI aims to provide researchers, health professionals, and policymakers with a platform to share and discuss the latest research, including evidence-based findings, on the health effects of diet-sourced hazardous factors, serving as basis for public health protection. The Special Issue covers a broad range of topics, including but not limited to the following: (1) Adverse health outcomes and toxicological studies of nutrients or food contaminants; (2) Dose–response relationship assessment of adverse health outcomes of excessive nutrient intake and the development of a tolerable upper intake level; (3) Interactions between xenobiotics and nutrition/nutrients; (4) Risk and risk–benefit assessments of nutrients or food components.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
