Nutrition and Cardiovascular Outcomes

Message from the Guest Editor

Although nutrition has been studied for centuries, modern nutrition science is quite recent, accelerating after the beginning of the 20th century. In the specific context of cardiovascular disease (CVD), the complex interplay with nutrition has been a matter of great interest and investigation. Indeed, it has been clearly depicted that a dietary plan based, among others, on fruits, whole grains, vegetables, olive oil, and fish, avoiding trans and saturated fats, red meat, sodium, sugar-sweetened beverages, and refined carbohydrates, improves CV health. Accordingly, on top of pharmacotherapy, healthy dietary choices have been developed such as the Mediterranean diet and the Dietary Approaches to Stop Hypertension (DASH) diet. However, despite the increasing understanding of the contribution of eating decisions in primary and secondary CVD prevention, there are still several gaps in the evidence and conflicting information, especially for complex patients with comorbidities. The aim of this Special Issue is to summarize the current evidence on nutrition and CVD interaction and provide individualized recommendations aiming at cardiovascular health promotion.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
