

## Special Issue

# Phytochemicals: Emerging Approaches to the Fight Against Aging and Aging-Related Diseases

### Message from the Guest Editors

Population aging has become a global issue. Aging is a gradual and irreversible pathophysiological process, with declines in tissue and cell functions, and represents the dominant risk in various aging-related diseases.

Typical aging-related diseases, such as neurodegenerative diseases, cardiovascular diseases, metabolic diseases, musculoskeletal diseases, and immune system diseases, pose a serious threat to human health and a challenge to the development of effective intervention strategies. In recent years, increasing evidence has emerged indicating that phytochemicals (plant-based bioactive compounds) are beneficial in delaying individual aging and reducing the occurrence of age-related diseases, rendering them a promising anti-aging approach. Contributions to this Special Issue should further explore the fields of phytochemicals in aging and aging-related diseases and provide a theoretical and molecular basis for developing new strategies for human health and treating aging-related diseases. We welcome well-designed research articles and reviews on these, and related, topics, especially at the molecular level.

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
