

## Special Issue

# Editorial Board Members' Collection Series "Advancements in Dietary Intake Assessment Methods"

### Message from the Guest Editors

Dietary assessment is an important part of nutritional status evaluation. And accurately assessing diet has always been a challenge. With the widespread use of smartphones and the development and popularization of mobile apps and wearables, the monitoring and assessment of dietary intake is becoming less burdensome, and the methods of dietary intake assessment have also developed more and more rapidly.

The purpose of this Special Issue is to collect research on new methods for monitoring and assessing dietary intake, as well as current research progress, including the assessment of differences in nutrient and energy intake among different groups, and determining the risk of insufficient or excessive nutrient intake. In addition, papers assessing the relationships between lifestyle, physical activity and dietary intake, the consumption of certain food, the relationship between eating habits and eating quality are welcome for submission. Of particular interest are studies reporting on new technologies and objective methodologies for the assessment of dietary intake, including wearables, image-based methods, and the discovery of dietary biomarkers of intake using metabolomics.

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
