

Special Issue

The Importance of a Clinical Diet and Nutritional Management for Patients

Message from the Guest Editor

We invite you to contribute your research to this Special Issue titled “The Importance of a Clinical Diet and Nutritional Management for Patients”. Nutritional therapy in the acute phase, especially for critically ill patients, has been fraught with various forms of chaos. However, the accumulation of evidence over the past decade has created a certain trend, and a form of critical care nutrition that contributes to (or detrimentally affects) prognoses is steadily taking shape. We are entering a new era, in which clinical nutrition for patients with acute illnesses should be re-evaluated. This Special Issue is open to research widely concerning clinical nutrition for patients with acute illnesses, including critically ill patients. We welcome the submission of both original research articles (including both intervention and observational studies) and reviews.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
