

## Special Issue

# Cocoa and Chocolate in Human Health

### Message from the Guest Editors

The medical uses of cocoa beans are well described in human history. Numerous reports have focused on various health-beneficial effects associated with the consumption of cocoa. Accordingly, increasing epidemiological evidence supports the concept that regular dietary intake of cocoa rich in phenolic phytochemicals may reduce or delay the onset of cardiovascular and other chronic diseases. Therefore, cocoa is continuously drawing attention due to growing scientific evidence suggesting its effects on health. This Special Issue of *Nutrients*, entitled “Cocoa and Chocolate in Human Health,” welcomes the submission of manuscripts either describing original research or reviewing scientific literature, including systematic reviews and meta-analyses. Papers should focus on the effects of cocoa flavonoids and cocoa products on the different aspects of the human health and their health-related benefits.

### Guest Editors

Dr. Davide Grassi

Università degli Studi dell'Aquila | Università dell'Aquila • Department of Life, Health and Environmental Sciences, Italy

Prof. Dr. Giovanni Scapagnini

Department of Medicine and Health Sciences “V. Tiberio”, University of Molise, Campobasso, Italy

### Deadline for manuscript submissions

closed (31 January 2021)

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
