

Topical Collection

Coffee and Caffeine Consumption for Health and Performance

Message from the Collection Editors

Caffeine is consumed daily by approximately 80% of the world's population, with the benefits of acute ingestion for physical and cognitive performance firmly established. Despite this, there continues to be many unanswered questions, such as optimal dose and timing strategies in order to maximise its ergogenic properties. This Special Issue aims to produce a body of work that provides novel insight with respect to the effects of acute and chronic caffeine or coffee consumption for health and human performance. To fulfil this purpose, work that considers population-specific effects, has clear potential to inform practice or that challenges common conceptions will be prioritised. Studies focused on performance trials in athletic populations will be considered, but should substantially progress what is already known. We kindly invite submissions of original research articles, systematic reviews, meta-analyses, and opinions and encourage authors to contact the guest editor in advance of preparing an article for submission.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez
