

Special Issue

Food, Nutrition, and Dietary Patterns during the COVID-19 Pandemic

Message from the Guest Editor

The different states of emergency and lockdown due to the COVID-19 pandemic have led to important changes in the lifestyles of populations, and consequently, eating habits may have been influenced. However, the control measures have differed between regions, in form and time, and so, therefore, have their consequences. Monitoring all the changes in food consumption trends and their impact on diet quality (by region, period, demographic and socioeconomic characteristics, etc.), is important in the field of nutritional epidemiology. Let us remember that changes that occur in eating habits and that are maintained over time can lead to changes in health or even permanently establish new habits in populations, with the consequences associated with them. This Special Issue of *Nutrients* titled “**Food, Nutrition, and Dietary Patterns during the COVID-19 Pandemic**” welcomes the submission of manuscripts providing either original research or reviews of the current changes in the diets of populations due to the pandemic, with which the need to establish preventive health measures can be assessed.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
