Modified Diets and Nutritional Strategies for Patients with Swallowing and Mastication Disorders

Message from the Guest Editor

Texture modified diets including fluid thickening and texture adaptation are widely used to manage patients suffering from swallowing disorders such as dysphagia and/or mastication impairments. This is very relevant for patients with neurological diseases and older people. Oropharyngeal dysphagia is recognized as a geriatric syndrome. Saliva, mastication and other factors such as shear rate and tongue pressure can have a remarkable impact on rheological and textural characteristics which can endanger patients' swallowing. This Collection aims to spread scientific achievements in the quantification of texture and rheology development of standardized protocols to assess the impact of swallowing, mastication and oral processing on texture and viscosity, as well as the research on nutritional complications associated (dehydration, malnutrition). The main aim is to define a framework to develop thickened fluids and texture modified diets, described in SI units, to guarantee quality control and reproducibility for clinicians, researchers and the nutritional industry facing aging, one of the most relevant sociodemographic characteristics of our society.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
