

## Special Issue

# Gender-Specific Nutrition: Insights into Cardiometabolic Health and Disease Prevention

### Message from the Guest Editors

This Special Issue, entitled “Gender-Specific Nutrition: Insights into Cardiometabolic Health and Disease Prevention”, will examine the influence of gender differences on nutrition and the prevention of cardiometabolic diseases. It will deepen our shared understanding of the interplay between nutritional factors and biological sex, addressing implications for weight management, metabolism, insulin resistance, and dietary impacts, including the Mediterranean and ketogenic diets. This Special Issue invites clinical studies, reviews, and experimental research that showcase personalized nutritional strategies and their potential for enhancing health and preventing disease, with a focus on gender-specific physiological characteristics.
