

## Special Issue

# Relationship Between Food Allergy and Human Health—2nd Edition

### Message from the Guest Editors

Based on the success of first volume of Special Issue Relationship Between Food Allergy and Human Health ([https://www.mdpi.com/journal/nutrients/special\\_issues/IG3L7R65EY](https://www.mdpi.com/journal/nutrients/special_issues/IG3L7R65EY)), We hereby announce Relationship Between Food Allergy and Human Health—2nd Edition.

The research field of food allergy is experiencing an important development with essential advances in the understanding of the pathophysiology of food allergy, sensitization routes, and the roles that specific immune cells, receptors, and pathways have in the initiation, development, and regulation of food allergies. Their gastrointestinal digestibility, bioavailability, benefits and risks for human health are crucial and should be determined.

Your contribution to this Special Issue, in which you are invited to share your findings and insights in the form of research articles, reviews, or short communications, will be a valuable asset and a compelling contribution that will potentially have an important impact on the field of food allergy.

---

### Guest Editors

Prof. Dr. Barbara Wróblewska

Institute of Animal Reproduction and Food Research, PAN, Olsztyn, Poland

Dr. Zlotkowska Dagmara

Institute of Animal Reproduction and Food Research (PAN), Olsztyn, Poland

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.
