

## Special Issue

# Endocrinology and Metabolic Diseases in Human Health

### Message from the Guest Editors

Metabolic non-communicable diseases represent a major threat for human health in Western- lifestyle countries. Hormonal unbalances play a role in the pathogenesis of severe conditions such as obesity, diabetes, dyslipidemia, and metabolic syndrome. Dysfunctions affecting the main endocrine glands (pituitary, thyroid, adrenals, pancreas, etc.) have detrimental effects on metabolic regulation. Food intake and diet composition are the main signals for the production and secretion of gastrointestinal and pancreatic hormones that allow the proper digestion, absorption and metabolism of nutrients, thus regulating energy homeostasis. The gut microbiota represents a huge source of signaling molecules able to crosstalk with hormones from the host. Moreover, micronutrients such as vitamins and minerals are necessary for the proper function of the endocrine system. Finally, the recent obesogen hypothesis has underlined how endocrine disruptors found in food products can negatively influence lipid homeostasis, thus contributing to metabolic disease.

### Guest Editors

Prof. Dr. Elena Grasselli

DISTAV, Dipartimento di Scienze della Terra, dell'Ambiente e della Vita,  
Università di Genova, Genova, Italy

Prof. Dr. Ilaria Demori

## About the Journal

### Message from the Editorial Board

*Nutrients* is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

### Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (UIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

#### Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
