Nutrition and Dietary Intake in Liver-Related Diseases

Message from the Guest Editors

Nutrition exerts a profound influence on not just the etiology but also the pathogenesis of liver disease. Historically, it has been recognized that chronic illnesses can precipitate malnutrition, particularly cirrhosis. We cordially invite scholarly contributions that adopt a holistic perspective, encompassing broader aspects such as overall health, physical activity, and lifestyle interventions. These contributions may offer insights into diagnostic and therapeutic modalities tailored to individuals afflicted by chronic liver diseases. Additionally, we welcome submissions that delve into optimal nutritional interventions and articles with a focal point on chronic liver disease. Furthermore, we encourage submissions elucidating the interface between nutrition and sarcopenia, a recognized significant mediator in the realm of chronic liver diseases. Of particular interest are the latest research findings concerning the intricate interrelationships between genetic factors and nutrition, as well as innovative multi-omics-based methodologies for the diagnosis and management of nutritional status.

About the Journal

Message from the Editorial Board

Nutrients is an on-line open access journal that was first published in 2009. *Nutrients* adheres to rigorous peer-review and editorial processes and publishes only high quality manuscripts that address important issues related to the impacts of nutrients on human health. The Impact Factor of *Nutrients* has risen rapidly since its establishment and it is now ranked in the first quartile of journals publishing in the field of nutrition and dietetics research.

Editors-in-Chief

Prof. Dr. Lluís Serra-Majem

1. Centro de Investigación Biomédica en Red Fisiopatología de la Obesidad y la Nutrición (CIBEROBN), Institute of Health Carlos III, 28029 Madrid, Spain
2. Research Institute of Biomedical and Health Sciences (IUIBS), University of Las Palmas de Gran Canaria, 35001 Las Palmas, Spain
3. Preventive Medicine Service, Centro Hospitalario Universitario Insular Materno Infantil (CHUIMI), Canarian Health Service, 35016 Las Palmas, Spain

Prof. Dr. Maria Luz Fernandez

Department of Nutritional Sciences, University of Connecticut, Storrs, CT 06269, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE (Web of Science), PubMed, MEDLINE, PMC, Embase, PubAg, AGRIS, and other databases.

Journal Rank:

JCR - Q1 (Nutrition and Dietetics) / CiteScore - Q1 (Nutrition and Dietetics)
